

CRANKCASE BREATHERS

HEAVY-DUTY PROTECTION FOR ON AND OFF-HIGHWAY

Baldwin crankcase breather filters, which provide heavy-duty protection while meeting tier 4 emission regulations, remove harmful emission gases that would otherwise be released into the air as carbon particles and oil vapors.

Particulates and oil vapor enter the crankcase as a product of piston ring bypass or "blow-by" during the combustion process. Baldwin crankcase breather effectively captures blow-by oil vapors and returns the oil to the reservoir.
