

BT23628

Hydraulic Spin-on

NEW RELEASE

Construction work can be quite demanding, especially where hydraulic and transmission filters are submitted to high pressures and temperature extremes. The Baldwin BT23628 hydraulic spin-on filter has been tested to meet these conditions. This filter is designed for high-efficiency contaminant removal, matching what the OE filter was designed to remove. Keep your equipment running smoothly in all types of environments and through the OE expected maintenance interval by using the Baldwin BT23628.

APPLICATIONS

John Deere Loaders

CROSS-REFERENCE

John Deere AT466863;
ZF 501232665

SPECIFICATIONS

Contains: Threaded Stud: M24 x 1.5;
35 PSID By-Pass Valve
O.D.: 3 23/32 (94.2)
Length: 5 11/16 (144.7)
A. Gskt.: [1] Included
