

BALDWIN PRODUCT PICK

PF46171

FUEL/WATER SEPARATOR ELEMENT

Baldwin Filters' PF46171 Fuel/Water Separator Element features a one-piece, extended end cap. Once the fuel reaches the flange indicated by arrows at the top of the filter (as it is installed in the housing) the filter needs to be changed. This is easily visible through the housing.

The PF46171 features multi-stage water removal to keep your engine protected for the recommended service interval. The PF46171 is designed for easy servicing to get your truck back on the road.
