## BF46156

### FUEL SPIN-ON WITH OPEN PORT

Baldwin's BF46156 Fuel Spin-on with Open Port is designed to protect a variety of John Deere equipment, including dozers, excavators, forestry equipment, generators, harvesters, industrial engines, loaders, motor graders, sprayers and tractors.

The BF46156 features anodized aluminum threads, which are stronger and more dimensionally stable than plastic threads that can shrink or swell with humidity changes, heat and other environmental factors. The BF46156 fuel spin-on with open port is compatible with OE bases, bowls and filter drains/sensors.
