

BALDWIN PRODUCT PICK

CV15012

CRANKCASE BREATHER

Baldwin Filters' CV15012 crankcase breather utilizes proprietary PEACH® media technology to remove harmful oil mist and particulates that would otherwise be released into the air.

The PEACH element utilizes patented synthetic media layers bonded together to provide outstanding filtration protection, allowing for high flow and maximum efficiency. Inner, exposed layers of the media capture larger contaminants, while the deeper layers filter down to the 0.2 micron level.

Ultrasonic welding bonds plastic components together to ensure structural durability to withstand tough operating conditions.

With the Baldwin CV15012 your engine will meet ever-increasing emission regulations.

| CROSS-REFERENCE | |
|-------------------|---------------------------|
| Cummins | 4937499, 4939749, 5263190 |
| Fleetguard | CV50603, CV50628 |
| HiFi Jura | CV50628 |
| SF Filters | SBL88047 |

| SPECIFICATIONS | | APPLICATIONS |
