

P40031-MPG

Maximum Performance Glass Lube Element

NEW RELEASE

Today's modern, high-performing heavy-duty engines need more protection than ever from smaller particles of contamination. The Baldwin P40031-MPG lube element helps protect your equipment with our Maximum Performance Glass (-MPG) media. MPG media is synthetic and glass fibers sandwiched between nylon and polyester materials reinforced with wire backing. The excellent flow properties and less restrictive media provide contaminant trapping and holding capabilities, while maintaining low pressure drop. Protect your engine as the OE intended, use a filter that is up to the job - use the Baldwin's P40031-MPG.

APPLICATIONS

Case Harvesters, Loaders, Sprayers, Tractors; Iveco Trucks with Cursor 9, 11, 13 Engines

CROSS-REFERENCE

Case 2996570, 504179764, 84565867;
