## Installation Instructions for CA30103 and CA30104

Baldwin Filters recently introduced the CA30103 and CA30104 Channel Flow EXO air elements. When installing the CA30103 or CA30104 element in the housing, the element may appear to be installed properly.

However, it is important that you follow the steps below to guarantee the element is in the correct position and the housing lid is attached and sealed properly.

1. 
2. 
3. 

Following the Steps Below:

1. To ensure proper installation, first push down on the inlet side of the element.
2. Next, push down on the opposite side of the element until you hear the element snap into place.
3. Attach the housing lid and tighten all bolts. (Lid should be tightened to torque specified on lid)

**PLEASE NOTE:**

If the element is not secured correctly, the housing lid will not close properly.

**CORRECT****INCORRECT**
