12CS Series

Coreless Spin-on Filter Max. 75 I/min - 35 bar

Environmentally friendly alternative for spin-on filtration

Lightweight, non-metallic element that can be incinerated

The 12CS Series features a Parker, replaceable coreless Ecoglass III element in a re-usable bowl for easy used element removal and disposal. Maximum pressure 35 bar and the Ecoglass element offers a low environmental impact in landfills.

Contact Information:

Product Features:

- 12CS features a Parker quality, replaceable coreless Ecoglass III element.
- Re-usable bowl design for easy element removal.
- Maximum pressure 35 bar.
- An eco filter solution for hydraulic systems.

12CS Series

Expensive disposal costs

The Smart Alternative to Spin-on Cans!

Features:

Parker engineers have developed an innovative alternative to the age old spin-on style can. This new design provides all of the benefits of high efficiency, long life Ecoglass III filtration, without the environmental impact.

The new environmentally-friendly 12CS hydraulic filters feature a reuseable bowl and a quality filter element constructed primarily of nylon and fiberglass. The element core is permanently attached as part of the filter bowl. When replaced, the element reduces costs, eliminates hot drain requirements, can be easily incinerated, and is better-suited for most landfills.

The 35 bar filter is rated up to 220 l/min, with premium Ecoglass III elements as standard offerings. The element design also prevents filter operation if the proper element is not in place.

Applications:

Mobile Ag Mobile Construction Material Handlers Aerial Lifts Pilot lines Charge pump hydrostatic drives Industrial power units Machine tools

Feature	Advantage	Benefit
 35 bar operating pressure 	 Withstands pressure surges, allows application versatility. 	 Broader applications compared to lower rated spin-on cans.
Parker quality element	 Provides head-to-bowl seal. Must be installed for operation. Ensures original element must be used. 	 Provides optimum leak-free performance. Meets system cleanliness requirements.
• Coreless Ecoglass elements	 Lightweight, non-metallic. Ease of service and disposal. 	 Reduces disposal costs. Can be incinerated. Low environmental impact in landfills.
 Spin-on filter assembly w/re-usable bowl 	 Improved, cost-effective design. 	• Easy to maintain.

Specifications

Pressure Ratings: Maximum Allowable

Maximum Allowable Operating Pressure (MAOP): 35 bar (500 psi) Fatigue: 27.6 bar (400 psi) 1,000,000 cycles: 27.6 bar Design Safety Factor: 2.5:1

Operating Temperatures: Buna: -40°C to 107°C

Element Collapse Rating:

10.3 bar (150 psid)

Element Condition Indicators:

For predictive maintenance, 3 types of indicator are available: An electrical analogue or switch type indicator or a battery operated visual LED indicator.

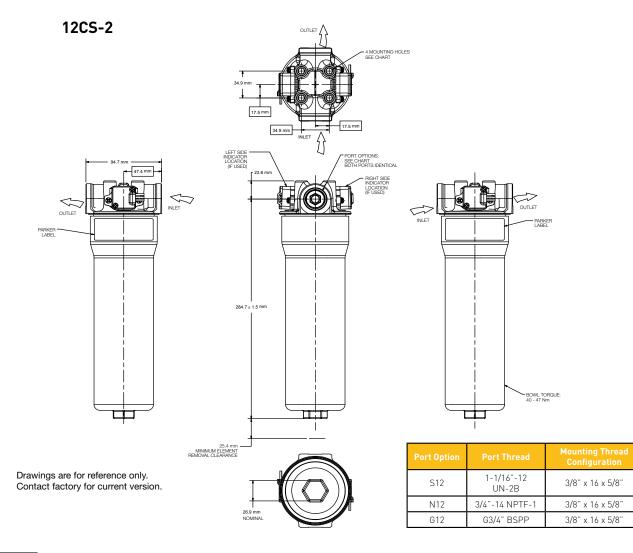

Materials:

Head: die cast aluminium Bypass valve: nylon with steel spring Filter element: fibreglass and polyester with nylon endcaps Bowl: steel

Permanent core: steel

Weights (approximate):

12CS-2..... 1.4 kg (3lbs.)

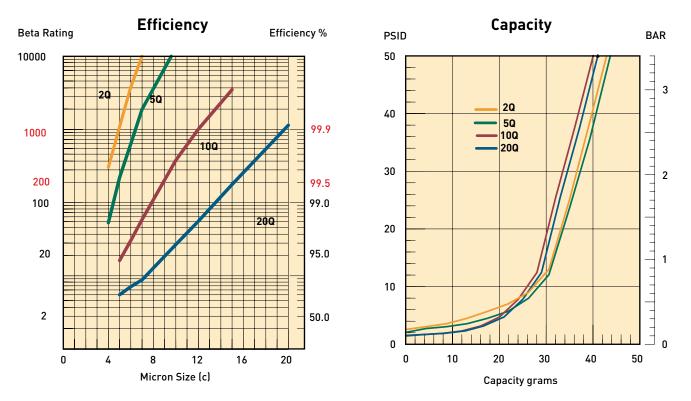

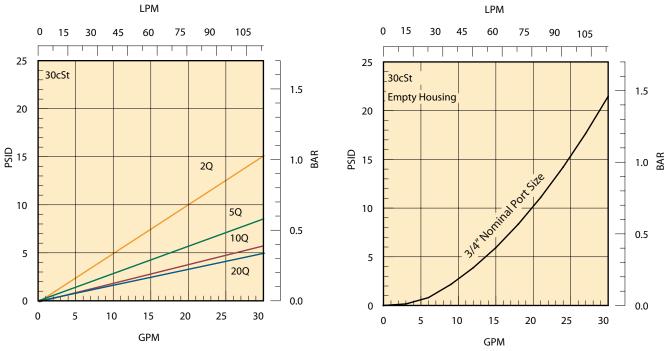

Parker Hannifin Hydraulic Filter Division Europe FDHB500UK/12CS

12CS Series

12CS-2 Performance

Results typical from Multi-pass tests run per test standard ISO 16889 @ 15 gpm to 50 psid terminal - 10 mg/L BUGL Refer to Appendix for relationship to test standard ISO 4572.

Flow vs Pressure Loss

12CS Series

Service Instructions 12CS

Filter Service

Filter element should be replaced as indicated by filter indicator gauge, or at specified service intervals recommended by the OEM.

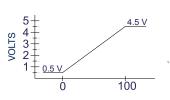

Replacement element procedure

- A. Shut down system and release pressure in the filter line.
- B. Loosen bowl and remove rotating counter clockwise.
- C. Remove dirty element from filter head and discard.
- D. Lubricate element seals on clean element and install on filter head element locator.
- E. Install reuseable bowl onto element and filter head.

Element Condition Indicators

- 5. Analog Elctrical
- Supply voltage: 4.5 to 5.5 VDC
- Main output current: 1 mA
- Output voltage: Ratiometric (see graph)
- Approvals: CE, IP68
- Connector: 12" wire leads, 18 Gauge Yellow (analog out) Black (OV) Red (supply +5 V)

ELEMENT LOAD CONDITION (% LOADED)

- 6. Electrical Switch (Reed swithc On/Off - Connector: 12" wire leads, 18 Gauge
 - Yellow (NC), black (NO), Red (C)
 - Maximum switching voltage: 30V (DC/AC)
 - Maximum switching current 0.2A
 - Maximum carry current: 0.5A
 - Approvals: CE, IP68
- 7. Visual Indicator (Red LED)
 - Push to test
 - Battery operated
 - Visual LED (red = change element)
